

Building Dynamic Web pages with PHP

Spring 2011

Instructor: Mark Newsome

Website: webdesign.marknewsome.com

Email: newsome@acm.org

Room: BC-206 (LBCC Benton Center)

Time: Thursdays, 7:00 – 9:50pm

Dates: April 7, 14, 21, 28

Course Description

This course builds on your knowledge of HTML. Students should already know how to operate a computer, use a Web browser and understand the fundamentals of scripting or programming.

Class Description

The class consists of a lecture, demonstrations, and in-class exercises. *Since this is a hands-on course, attendance is strongly encouraged.* We meet once a week for four weeks. Each class lasts three hours.

Books and References

No textbook is required. (Feel free to purchase one you like.) We will also be using free materials from the Web.

Grading Policy

A: Miss one class and submit *all* three of the assignments correctly.

B: Miss one class and submit two of the assignments correctly.

C: Attend at least two classes and submit one of the assignments correctly.

Pass: Attend at least two classes and submit at least two of the assignments correctly.

Y: Received if 25% or less of the work required for Pass is submitted.

Disability Statement

Students who have any emergency medical information the instructor should know of, who need special arrangements in the event of evacuation, or students with documented disabilities who may need special accommodations, should make an appointment with the instructor as early as possible, no later than the end of the first week of class. If additional assistance is required, the student should contact the Office of Disability (ODS) at ext. 4683.
